WORK EXPERIENCE

ART - Abstinent Research & Technologies

ReactJS Intern

Sep 2024 - Present

- Designed and refined reusable components for web and mobile applications using **React** and **React Native**.
- Contributed to the live project **Vibe** by implementing **React Flow** for visual workflows.
- Developed a dynamic **Settings page** with modular components and user-friendly interfaces.
- Integrated and optimized **APIs for React Flow**, ensuring smooth interaction and data synchronization.
- Collaborated with team members to enhance project performance and maintain clean, scalable code.

EDUCATION

Oriental College Of Technology

B.Tech (CSE-Cyber Security) - 7.15

Oct 2021 - Jun 2025

Shiksha Bharti Bal Niketan

12th - 69%

April 2020 - May 2021

St.Charles School (ICSE)

10th - 72%

April 2018 - May 2019

PROJECT

Blog Website

- Developed a **dynamic blog website** using **React** and **TypeScript**, styled with **Tailwind CSS**, and deployed on **Cloudflare** for high performance.
- Built a robust backend with **Hono** and **Prisma**, incorporating a **monorepo structure** for efficient development.
- Integrated **Zod** for **input validation** and **Axios** for seamless **data fetching**, ensuring reliability and responsiveness.

Recipe App

- Built a **Recipe App** in **React**, enabling users to create, edit, and view recipes with real-time updates.
- Implemented **dynamic state management** and **input validation** for enhanced functionality and reliability.
- Utilized **React components, hooks, and props** to deliver an optimized and seamless user experience.

Payment App

- Developed a **Basic Paytm app** using **React** for the frontend, **Tailwind CSS** for styling, and **Node.js** with **MongoDB** for a secure and scalable backend.
- Implemented **Mongoose transaction functions** for seamless transactions and utilized **Axios** for efficient HTTP requests, ensuring a user-friendly interface.

SKILLS

- Programming Languages:** Java, C.
- Front-end:** HTML, CSS, JavaScript, React.js, Tailwind, Bootstrap, TypeScript, React Native.
- Back-end:** Node.js, Express.js, RESTful API, JWT, Passport.js, Zod validation.
- Database:** MongoDB, Prisma.
- Tools:** GitHub, Git, Docker

Achievements

- 70+ Problems solved at [CodeChef](#).
- 80+ problems Solved at [LeetCode](#)

CERTIFICATE

- [Java](#), [Front-End](#), [Back-end](#), [React JS](#)
